➤ LOGIN PAGE:

The login page showcases a visually appealing design crafted using HTML and CSS. It utilizes Flexbox for proper alignment of form elements within a container. Essential input fields for email and password are styled for readability. A 'Remember me' checkbox is incorporated, maintaining a consistent design. The page employs a maroon-themed background image, hover effects on the login button, and responsive design for different devices, offering an engaging user experience.

➤ SIGN UP PAGE:

The provided HTML and CSS code establishes a user-friendly signup form. It is designed with clean and concise styles, creating a visually appealing interface. The form utilizes a centered container layout with a semi-transparent white background over a fixed background image. The form consists of fields for the user's first name, last name, contact information, email address, password, and country selection. Each input field is well-labeled and styled uniformly with rounded corners and subtle border effects for enhanced visual clarity. Additionally, the "Sign Up" button is prominently displayed, using a distinct color scheme and hover effect to provide intuitive interactivity.

A screenshot of a sign up page. The background is a solid maroon color. In the center, there is a light pink rectangular box with rounded corners. At the top of this box is the text 'Sign Up' in a bold, black, sans-serif font. Below this text are several input fields, each with a label above it: 'First Name', 'Last Name', 'Contact Information', 'Email Address', 'Your Password', and 'Country'. The 'Country' field is a dropdown menu with the text 'Select your country' and a small downward arrow. At the bottom of the pink box is a blue button with the text 'Sign Up' in white.

➤ HOME PAGE:

The homepage consists of several sections, starting with an introduction about the brand's philosophy. The main image is displayed below the introduction, enhancing the visual appeal of the webpage. Following this, there's a section introducing the brand ambassadors, showcasing their images and names with a call-to-action to "Meet" them. Additionally, there's a segment displaying snippets of reviews. These sections use images and minimal text to engage users and provide a glimpse into the brand's identity and the feedback it receives. Overall, the page aims to present a blend of visuals and concise content to captivate visitors' attention and provide a glimpse into the brand's style and ethos.

➤ CATEGORIES PAGE:

The provided HTML and CSS code constructs a web layout to showcase different categories of clothing items. It primarily focuses on the main content area where various clothing categories are displayed in a grid format. Each category is represented by a box containing an image and a title, serving as a link to a specific page related to that category. These categories include Winter Unstitched, Winter Pret, Summer Unstitched, Summer Pret, Complete your Look, and Sale. The grid layout is organized using flex properties to arrange the boxes in a responsive manner. Upon hovering over these boxes, a slight increase in size (scaling effect) occurs, enhancing the interactive feel for users. The styling applies appropriate padding, margins, font types, and sizes to ensure a visually appealing and user-friendly presentation of clothing categories on the web page. The background of the webpage is set to an image file named 'image.png', creating a visually engaging backdrop for the displayed content.

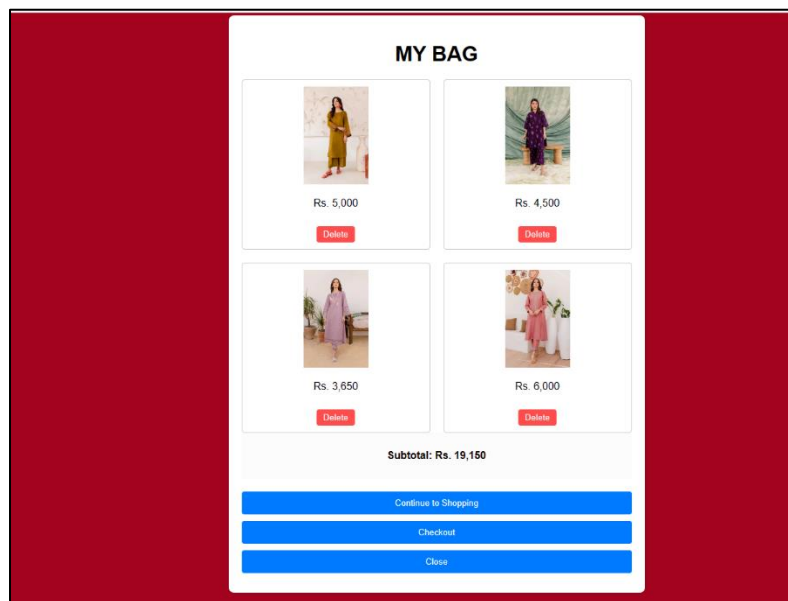

➤ SUB CATEGORIES:

After clicking the specific category for the categories page it will show products of respective category which will have the stuff of the fibers, its price and if it is pret wear or footwear it will show different sizes to choose according to your wish.

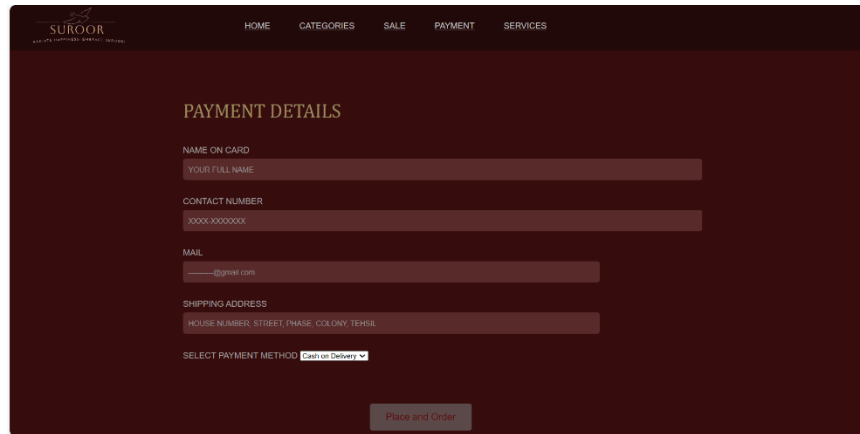

➤ CART PAGE:

This HTML and CSS code represent a simple shopping cart interface named "MY BAG". The webpage features a container div with a centered layout and a background color. Inside this container, it displays a list of items in the cart, each represented by a div with an image, price, and a delete button. The items are displayed in a grid layout using CSS grid. The "Delete" button on each item is styled with a distinctive color and shape. Beneath the items, there's a subtotal section showing the total price of all items added to the cart. Furthermore, there are buttons for editing the cart, proceeding to checkout, and closing the cart at the bottom of the container. Overall, the design provides a clear and structured representation of a shopping cart interface, allowing users to manage their items and proceed to checkout or make modifications as needed.

➤ PAYMENT PAGE:

The payment page is dedicated to payment details. It consists of a form allowing users to input essential payment-related information, including the name on the card, contact number, email address, and shipping details. Additionally, there's a dropdown selection for choosing the preferred payment method, offering options for 'Cash on Delivery' or 'Online Payment.' The layout seems tailored to facilitate the collection of necessary payment information from users before completing an order, creating a streamlined process for handling transaction details.

The screenshot shows the 'PAYMENT DETAILS' section of the SUROOR website. The header includes the SUROOR logo and navigation links: HOME, CATEGORIES, SALE, PAYMENT, and SERVICES. The form contains the following fields:

- NAME ON CARD:** A text input field with the placeholder 'YOUR FULL NAME'.
- CONTACT NUMBER:** A text input field with the placeholder 'XXXX XXXXXXX'.
- MAIL:** A text input field with the placeholder '____@gmail.com'.
- SHIPPING ADDRESS:** A text input field with the placeholder 'HOUSE NUMBER, STREET, PHASE, COLONY, TOWN'.
- SELECT PAYMENT METHOD:** A dropdown menu currently showing 'Cash on Delivery'.

A 'Place and Order' button is located at the bottom right of the form.

➤ Header of Website:

The website header serves as a navigational hub, seamlessly integrating the brand's logo and providing intuitive options for users to explore various sections. It elegantly incorporates essential links, offering easy access to different pages, such as categories, payment, sale, and services. This sleek arrangement ensures a user-friendly experience, allowing visitors to effortlessly navigate to their desired destinations while maintaining brand visibility through the prominently displayed logo.

➤ Footer of Website:

The footer is neatly organized into three sections: quick links, useful resources, and contact options. Quick links direct users to essential pages, while the useful resources section provides access to help centers, feedback, and policies. Additionally, it offers various contact channels, including social media platforms, ensuring easy communication and support for users.
